

Welcome to the Hallowell Center for Cognitive and Emotional Health!

Thank you for selecting our office for your care. My entire team is looking forward to assisting you in every way we can. Helping all kinds of people reach their full potential is what we do best. We take a strength-based approach here and see ourselves not as treating disabilities *but rather as unwrapping gifts and promoting talents*. We also take delight in building long lasting relationships with our family of clients. We're here to help you excel in school and at work, have happy and harmonious relationships, and achieve your most treasured goals.

We would like your first visit to be both pleasant and informative. During your visit we will do our best to answer your questions, clearly explain our thoughts to you and provide you with materials to better understand our recommendations.

As a specialty office, we are not members of any insurance programs and we ask that payment be made at the time of service. The reason for this is that insurance brings with it a vast bureaucracy that can prevent us from delivering the care we deem best. However, we do want you to recoup funds from your insurance if you can, and to help you do this, we can provide a receipt for services that includes a diagnosis code and a procedure code that may help you obtain reimbursement from your insurance carrier.

Our entire team at the Hallowell Center is looking forward to meeting you and being of service to you and your family. If you have any concerns or questions prior to the appointment, please call us. We invite you to visit our website, where you can sign up for our newsletter and learn more about our practice at www.drhallowellsudbury.com. You can also visit my own website where you'll find a great deal of additional information at www.drhallowell.com

With all best wishes,

Dr. Edward (Ned) Hallowell
